### WILL THE PEOPLE

Following are the net results of the infamous Goebel Election Commission: Democrats absolutely control the election system in every county in Kentucky. In 95 counties there are two Democratic and one Republican Election Commissioner; in 13 other counties there are two Democratic and one Populist Commissioner; and in the 11 remaining counties we have solidly

Democratic Boards. Republicans are in a helpiess minority of one against two in 95 counties, and in 24 counties they are absolutely without representation on the Boards that are masters of the election machinery, pass upon all election contests and from whose most infamous decisions there is no appeal.

The Republican organizations were not permitted to select the few Republicans appointed, and it is a notorious fact that the so-called Populists are nearly all Democrats in disguise, having voted and acted with the Democratic party on every important occasion in recent years.

The mask of hypocrisy that was put on when Judge Payon was elected a member of the State Election Commission has been thrown off, and the Goebel conspiracy is revealed in all its hideousness.

Has the Republican party been such an enemy to the state and Nation as to justify these outrages against law and decency to drive or keep it from

Is the supremacy of WILLIAM GOE-BEL and his high-handed followers so important to the welfare of Kentucky as to condone this unspeakable rape of the ballot?

#### A CRITICAL TIME.

Well, a Rush Night and Day.

The Packers at the Battle of Santiago de Cuba Were All Heroes-Their Heroic Efforts in Getting Ammunition and Rations to the Front Saved the Day.

P. E. Butler, of pack-train No. 3, writing from Santiago de Cuba, on July 23d, says "We alighed diarrhoes in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and nay to keep the troops supplied with ammunition and rations, but thanks to Chamberiain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I know

in four cases it absolutely saved life." The above letter was written to the manu facturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by J. Jas. Wood & Son, Druggists.

A Big Wheat Crop For 1899.

there will be a good wheat crop next year, because the bulk of the wheat spring wagon. Greatest invention of the age. Florence Second growth Hickory sown this fall will be sown with Empire Disc Drills, and they make no mistake. Empire Drills are positive and absolute. They do exactly what you tell them to do. The Empire Disc Drill is the only positive feed drill made. It will feed the same quantity of wheat, rye, oats or barley with the same gear. Size of the grain cuts no figure with the Empire. You do not have to sow four or five acres before you know what you are doing as with other drills. The Empire has telescoping steel conductors which never break or choke up as do the old-fashioned rubber conductors. The Empire drag bars are fastened to the top of the boot, five inches But he had met a brother Mason and they higher than on other drills and trash will not choke and stop the Empire.

will drill corn successfully. Remember, the Empire is a positive feed drill, and the only one on the market. The grain is gently lifted into the conductors by a round, sancer-shaped part which is made to rotate by a square shaft. Only so much grain can be lifted and fed as this part will hold, and in order to sow a large or small quantity of grain per acre you simply put a large or small cog wheel on this shaft, which makes the round, saucer-shaped lift revolve faster or slower. Each cog wheel is numbered and guaranteed to sow an exact quantity of any grain per acre-wheat, rye, oats, barley. The Empire has tapering axles like a thimble-skein wagon, and a peculiar wheel, a wheel that we will guarantee will not rub the boxes in five years as on other drills-no, not in twenty-five years. Buy the best. Buy the Empire and take advantage of 48 years experience. The factory now offers you the result of a lifetime's study and invention, viz: The Empire Disc Drill. Ask your grandfather about it. Ask any old citizen if he ever heard of an Empire Drill. I can show you an Empire Drill that is 31 years Parent Medicine Proprietor-Hereafter all old and still running. The Empire for 48 years has had a National reputationknown and used the world over except Mason county. The Empire is not a cheap drill. It costs the agent a little more than other drills. Perhaps that is why your implement dealers have never sold the Empire Drill here. Empire Drills vant to see their names in print they ought to are being exhibited and sold in Mason county now. I have shown this drill to at least 80 farmers in the last two weeks and every one is enthusiastic in its praise. Call, examine this wonderful machine and convince yourself. It is a pleasure for us to exhibit it. Call and see us.
